

## **Garden City Solid Waste Services RFP Procurement**

### **Service Providers Questions and City Responses**

**March 23, 2021**

#### **Addendum 3 – Fee Proposal Clarifications**

In an effort to clarify specific items on the Fee Proposal form, the City is issuing Addendum 3 and replacing the first version of the Fee Proposal form with a Revised Fee Proposal form which is attached to this Addendum.

#### **Sludge and Misc Material Disposal Fees for the Water Pollution Control Plant (WPCP)**

The existing Fee Proposal form describes the basis for the sludge disposal fee under Note 5. The attached Revised Fee Proposal form clarifies the disposal details for the 4 yard dumpster at the WPCP headworks and the 20 yard dumpster at the WPCP belt filter press.

The disposal details for these two items should be as follows and be reflected in the Service Provider's Fee Proposal submittal using the Revised Fee Proposal form.

20 Yard Dumpster: The Service Providers should price this item on a "per haul" basis as well as a "per wet ton" basis. In this arrangement, the Service Provider will invoice the City monthly for the service as stipulated. The future process will have the City staff call for a dumpster pick up (i.e. a haul event) whereby the 20 yard dumpster is picked up. The Service Provider will then charge the City for the haul event and then charge per wet ton of the actual tonnage for that haul event because the weight varies from load to load. ***The turnaround time shall require that the dumpster pickup occur within 24 hours of the request.***

4 Yard Dumpster: The Service Providers should price this item on a "per week" basis since Question 11 of Addendum 1 stated that it is picked up weekly. For further clarification, the material in the 4 yard dumpster is miscellaneous material from the bar screen at the inflow point of the WPCP. The 4 yard dumpster is a front load container and its waste can typically be mixed with other similar MSW materials.

#### **Recycling Pickup and Disposal Fee**

Addendum 2 clarified that recycling is to be picked up "every other week" on Thursday. The Revised Fee Proposal Form reflects that clarification and the Service Providers should submit their fee accordingly.

#### **Bulk Waste Pickup and Disposal Fee**

Addendum 1 clarified the bulk waste pickup schedule. The Revised Fee Proposal Form reflects that clarification and the Service Providers should submit their fee accordingly

### **FEE PROPOSAL – Revised per Addendum 3**

Complete the pricing information below and include it in a separate sealed envelope.

<b>Description:</b>	<b>Cost</b>
Collection and Disposal of Acceptable MSW (1 Toter) <sup>1</sup>	\$ _____/month/unit
